

Technical Seminar - Albany Chapter NCRS  
October 28, 2017  
Al Grenning, Presenter

## Production Order Documentation and Engine Pad Legitimacy

**Part one** will be a detailed overview of information seen on Corvette production order documents including: inventory sequencing, exception letters, dealer codes, dealer order numbers, St. Louis identification numbers, engineering revisions, production order errors, COPO orders and production orders during the internal 1965 to 1967 Chevrolet horse power wars. Along the way the session will provide a comprehensive understanding of all that can be on a document page beyond the obvious.

**Part two** will be understanding engine pad stampings, using examples representing many interesting production aberrations like: over stampings, broach mark application, strike locations, bounce strikes, over strikes, assembly line errors and their corrections as well as normal age distress. Examples shown will be taken from among the largest data bases. The purpose of this session is to demonstrate why it is very important to keep an open mind concerning what is actually a legitimate example.

Both sessions will use extensive Power Point projection examples to illustrate topics and examples.

This will be a new program by Mr Grenning. There will be handouts available and lunch is included in the cost. **SPACE IS LIMITED SO REGISTER EARLY! No Registrations will be accepted after 10-15-17.** 1 Judging Point will be awarded for attending both parts.

**Date:** 10-28-17 Part one starts at 9am and Part 2 starts at 1 pm

**Location:** 18 Industrial Park Road, Troy NY  
(GPS likes 18 Colleen Road, Troy NY)

**Cost:** \$25 per person.... Pre-Registration is required!

No registrations accepted after 10-15-17

**Send Checks to:** Lief Larsen

MMC Millwork  
18 Industrial Park Road  
Troy NY 12180

**Make Checks payable to Adirondack Chapter NCRS**
